

KHYI IMC Meeting - More Than ICE

Scenario: You are on an IFR flight as Icing begins to develop. You are in a pressurized aircraft and when the icing starts you request lower (still at levels requiring oxygen), you hear a loud noise and see a crack in your windshield eventhough the pressure seems to be holding. What would you do?

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

Event Details

Thu, Aug 20, 2026 at 18:30 CST

**San Marcos Airport Airfield
Operations Building**

400 Airport Highway 21
Airfield Operations Building
San Marcos, TX

Contact: Steve Roberts

FLYING IN - Set your GPS to KHYI, Direct, Enter, Enter - From the North talk to Austin Approach; From the South talk to San Antonio Approach; After landing, tell Ground Control you want to park at Berry. If you plan on this method, call ahead, you will need to use the courtesy vehicle to get to the meeting, which is on Highway 21. Event organizers are not providing transportation from the airfield to the event.

DRIVING IN - From Interstate Highway IH-35 – Follow the signs from the highway from either direction. Do not enter the airport, the conference area is on HWY 21.

WALKING IN – Not a good option!!! Try a Taxi or Ride Share.

A message from the National FAASTeam Manager
