

EAA Chapter 35 VMC Club

After practicing a number of commercial maneuvers to prepare for a checkride, you as our Cessna 172 pilot encounter an unusual mechanical issue while returning to the airport. How can you prepare for keeping the airplane under control in nonstandard configurations?

Join in the discussion. Give us your opinion. You may be surprised at how many ideas the group will have and have some fun, learning at the same time! Please join us and tell us "What would you do?"

Bring your EFB, your experience, and your questions, and be ready to participate.

EAA Chapter 35 VMC clubs are open to ALL interested pilots and aviators of all experience levels. You do not need to be an EAA member to attend. This is an interactive group discussion of a specific scenario and of general safety and learning points led by experienced CFI's. Fly in or Drive in - Everyone is welcome!
