

New Braunfels VMC Club Meeting - Fun With Flaps

A normal flight out to the practice area goes well. On the return flight, you get distracted and exceed the flap operating airspeed. The flaps go full extension on one side and retracted on the other side. The manufacture guarantees the airplane will fly with one flap down and one flap retracted? How do you control the airplane?

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education through safety and proficiency and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips.

Through the FAA Safety Program, aviation professionals provide informative **WINGS** presentations. Membership in the EAA/VMC Club is encouraged but not required to participate in this meeting.

Event Details

Tue, Oct 13, 2026 at 18:30 CDT
New Braunfels National Airport
2333 FM 758
New Braunfels, TX

Contact: Terry Ross
