1. Go To WebAdvisor
  2. Go to WebAdvisor User Name/Password Help located under Log In Links.
  3. Click on What's My Password Hint?
  4. Enter your User Name, click Submit.
- If your password hint does not help, proceed to Password Menu located in the upper right-hand corner of the screen.
    1. Click on Change Password (I do NOT know my password)
    2. Enter your User Name, click Submit.
  - If you have to set up your new password security questions, you can proceed to answer the questions and set up a new password and password hint.
  - If you have not set up your password security questions or cannot remember the answers to your security questions, you must call 817-515-TCCD (8223) to request a password reset.

## Password Security Questions

As an added level of security, students must set up three security questions and answers. The student will be prompted to set these up during initial login.

- If you know your username and password these can be updated any time on WebAdvisor.

## Create a New Password

After successfully setting up your password security questions for the first time, you will need to change your password and set up a password hint.

1. Go To WebAdvisor User Name/Password Help.
2. Select Change my current or temporary password.
