

FAR's and Bowling Balls

Have you ever wanted to shut down an unsafe operation? Ever thought about throwing bowling balls out of an aircraft? Do you think that you know the Code of Federal Regulations as they apply to flying? If you answered yes to any one of these questions, you must attend this presentation. Bring a copy of the FAR's or a laptop so that we can download a copy for this event. You will need it. We will divide into small groups to review a scenario.

Directions: The Denton terminal building is 200 feet northeast of the control tower.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
