

Aviation Maintenance Technician Technical Seminar

This seminar will cover the theory of operation and provide an overview of the 500 hour inspection criteria. The presentation will include covering the latest Service Bulletins, Service Letters and product improvements. The Slick LASAR Electronic Ignition systems are discussed along with an update on the new next generation electronic ignition system.

Directions: From highway 820 take exit 13 onto Main Street towards Meacham International Airport. Drive past the Meacham Terminal and turn right on 38th Street (just past the fire station) and drive to the end of the street (dead end). The Vintage Flying Museum will be to the left. The meeting room will be marked at the entry of the museum.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants.
