

Communicating on Cue

How you "sound" on the radio can make a big difference in the service and support you get from ATC. Become a GREAT COMMUNICATOR. Learn the proper and effective way to communicate when flying. We'll go over not only the basics, but also some very "in" things to say on the radio that can set you apart as a more competent pilot. Airborne communications is not something to be feared and shunned; it is a challenge that should, and CAN, be mastered by all pilots.

Directions: Go West from downtown Granbury on W. Pearl St (377 BR) 2 miles. Turn right at Airport sign onto Howard Clemmons Rd and follow road to terminal on left. Conference room is in the terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
