

## WINGS Rusty Pilots (VFR)

Already have a Private Pilot Certificate but haven't been in the books for a while or maybe just feeling a little "rusty"? Here's a great way to get back up to speed on today's flight environment, rules, and procedures. This Rusty Pilots Workshop is for certificated private pilots and addresses a variety of topics related to VFR operations such as air traffic control, airspace, regulations, performance, weight & balance, aeromedical, ADM, aviation weather and weather services, navigation systems, and FAA "Special Emphasis Items".

**Directions:** The Fort Worth Aviation Museum (FWAM) is on Ross Avenue at the south side of Meacham Airport.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
