

WINGS Rusty Pilots (IFR)

Already have a Instrument Pilot Certificate but haven't been in the books for a while or maybe just feeling a little "rusty"? Here's a great way to get back up to speed on today's flight environment, rules, and procedures. This 3-hour Rusty Pilots Workshop is for certificated instrument pilots and addresses a variety of topics related to IFR operations such as regulations; cross-country flight planning; departure, en route, holding, and arrival clearances and procedures; approaches; aviation weather and weather services; traditional and glass cockpit navigation systems.

Directions: The Fort Worth Aviation Museum (FWAM) is on Ross Avenue at the south side of Meacham Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
