

## Communicating on Cue: ATC Communications - What to say, who to say it to, and when to say it.

How you "sound" on the radio can make a big difference in the service and support you get from ATC. Become a GREAT COMMUNICATOR. Learn the proper and effective way to communicate when flying. We'll go over not only the basics, but also some very "in" things to say on the radio that can set you apart as a more competent pilot. Airborne communications is not something to be feared and shunned; it is a capability that should, and CAN, be mastered by all pilots.

**Directions:** FLYING: TCCD aircraft parking ramp is off taxiway A3. DRIVING: From I-35W (North or South), take the Westport Pkwy exit. Turn WEST on to Westport Pkwy, then NORTH (RIGHT) on Heritage Pkwy, then WEST (LEFT) on Horizon Drive. Go to the end of Horizon Drive. TCC is the building on the RIGHT. Park in the lot in front of the building.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
