

10 Tips for Recovering Bad Landings

It's probably a fair bet that everyone who has flown an airplane has made a bad landing from time to time. Murphy's Law suggests that when we do so, it will always be embarrassing because a lot of people will be watching. So, let's look at some causes -- and some remedies -- to lessen the possibility. Bring your "war stories" and we'll all have a laugh at our occasional, but very human, lapses.

Directions: Go West from downtown Granbury on W. Pearl St (377 BR) 2 miles. Turn right at Airport sign onto Howard Clemmons Rd and follow road to terminal on left. Conference room is in the terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
