

## Things That Go Bump in the Night

Lockheed Martin, as well as the Navy and Air Force, routinely conduct low altitude, high speed flight tests all around the local area. Learn where and when these flights occur -- and how to become aware of these activities before your next flight inadvertently crosses paths with one or more of these "fast movers".

**Directions:** Go West from downtown Granbury on W. Pearl St (377 BR) 2 miles. Turn right at Airport sign onto Howard Clemmons Rd and follow road to terminal on left. Conference room is in the terminal.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
