

North Texas FSDO (SW19) FAA Safety Team (FAASTeam) presents:

# **CFI/DPE Forum - Fire Protection and Other Safety Products for General Aviation**

We talk about the potential for fire in an aircraft but actually give it very little real attention because the possibility of fire in flight seems so remote. When was the last time you taught and demonstrated emergency procedures for fire in flight? Here is an opportunity to increase your knowledge about realistic fire protection and have obtain substantive information to share with students and seasoned pilots.

Dewey and Jay have many years of experience in fire protection and will facilitate a discussion of: Basic Fire Chemistry Extinguishing Agents and How They work to Extinguish Fires Typical Fires in General Aviation on the Ground and Airborne Fire Extinguishing and Other Safety Products for General Aviation Halon Fire Extinguishing Demonstration Fires in Commercial Aviation and Lessons Learned

**Directions:** The airport is East of 360 and North of I-20 on Great Southwest Parkway between Arkansas Lane and Mayfield Road. Conference Room is in the Terminal Building.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
