

New Convective Weather Tools

A great new weather tool is available, and a couple old tools have been updated. These tools make it easier to avoid severe weather if you know how to take advantage of them. This seminar covers convective weather factors that are not generally taught, where to find them, and how to use them to avoid convective trouble.

Directions: Collin College is just East of Preston Road between Preston Park and Old Shepherd Pl. Check the monitor in the lobby for room number.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
