

North Texas FSDO (SW19) FAA Safety Team (FAASTeam) presents:

Airworthiness and Aircraft Records - What do Pilots/Owners/Renters Need to Know?

This WINGS seminar is about practical airworthiness and aircraft records information for pilots, owners, and renters. It's a startling fact: Many pilots do not REALLY know whether their aircraft is airworthy.

They ASSUME from their maintenance vendor that it is so. So, HOW would you know -- and WHAT should you ask? We'll start with the regs and the definition of airworthiness, look at what is actually recorded in the aircraft records, and discuss how all of this may impact you FINANCIALLY and well as LEGALLY. So what do pilots NEED to know about their aircraft records and whether or not the aircraft is actually airworthy? And WHY should you even care?

Come and learn some very compelling reasons and be surprised and, hopefully, enlightened.

This should be a most informative and lively discussion.

Directions: Farmers Branch Manske Library auditorium. The library is located at the corner of Webb Chapel Road and Golfing Green Drive in Farmers Branch, TX.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
