

Flying Blind

An exploration of the human brain (hardware) and human mind (software) as they relate to our visual system. Too often we "look" but do not "see". Such errors may be a function of our "hardware" and/or our "software". In all cases, this blindness must be understood so that we may incorporate techniques to improve our visual performance.

Directions: Take Highway 360 to Arkansas Lane. Travel east on Arkansas Lane to North Forum Drive. Turn right (south) on North Forum Drive...drive approximately 1/3 mile to facility parking on the left. Please review the Airbus Info Flyer attachment included below and titled "Additional Documents" for other information concerning attendance at the Airbus facility.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
