

Complex Airspace Workshop

This clinic is for Pilots and Student Pilots who want to learn more and become comfortable operating within the busiest airspaces in the US. We all don't learn to fly in Class B Airspace and for many of us a Class C airport is the most challenging airspace we have experienced. Join us as we build the scenario's for you to confidently navigate the most complex airspace. Emphasis is on Communication, what to expect from ATC and developing some best practices. Lunch of Hot Dogs and Chips will be served in this 3-hour event.

Directions: The workshop will be held in the US Sport Aircraft + Thrust Flight showroom hangar. This is the first hangar on the left once you pass the Addison Fire Department at Addison Road and Airport Parkway.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
