

# IMC Club Meeting - Behind the scene look at Fort Worth Air Traffic Control Center

We will pull back the curtain on ATC and see what goes on behind the scene at Fort Worth Air Route Traffic Control Center regarding flying in IMC conditions and other risk. The Pilot / Controller relationship is very important to safe operations and we want you to have a better understanding of ATC operations. After the presentation, there will be an opportunity to ask an air traffic controller questions and exchange information.

**Directions:** Land at KRBD and park in front of Delta Charlie's Restaurant and Terminal Building and walk through and Business Center is located on the east side of the Terminal Building outside.

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
