

Foreflight IFR Mastery

Most really good users only know 20-30% of the capabilities and advanced features of ForeFlight that can make flying IFR easier and safer. Come laugh and learn with the top national expert in IFR, ForeFlight and GPS use, Gary Reeves who is also the 2019 FAA National CFI of the Year! A must attend class for any IFR student, pilot or, instructor who uses/teaches with ForeFlight.

Directions: Airport Administration office is on the west side of the airport. If you fly in both FBOs are on the east side and you will need to Uber/Lyft etc to the other side of the airport. Please call ahead and check the FBOs for their current fees.

A message from the National FAASafety Team Manager
