

NTX FSDO presents:

# Top 5 IFR Mistakes that GOOD pilots and instructors make

A must-attend class with your chance to learn what only two decades and 8,300 hours of real-world experience flying in every US state can share. The 2019 FAA National Instructor of the Year and the top expert in single-pilot IFR Gary "GPS" Guy in the Pink Shirt Reeves is sharing this class for IFR students, pilots, and instructors that are already good, but who agree that being good... especially in high-stress unusual situations and emergencies may not be good enough. This class is not about making pilots and instructors wrong but instead about sharing distinctions and new ideas that can make learning, flying, and teaching single-pilot IFR much easier and safer.

**Directions:** The google maps link is EAA 690 Hangar KLZU - Google Maps  
Drive-in or fly in and park on the north ramp  
Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.
