

NTX FSDO presents:

Top 3 Causes of Dangerous Technician/Installer Mistakes - Not What You Think

Most commonly taught theories of accident and mistake prevention in aviation are only partially correct and have limited value in preventing other future accidents and mistakes. Learn the proven science behind the number one cause of most big errors and the other top two contributing reasons. The biggest surprise is how most modern business practices cause them.

Attendees will leave with a real plan and steps to follow to make the shop and technicians safer and much more productive.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.

Directions: The Convention Center is located 1/2 mile East of Interstate 4 highway. Proceed East from the Interstate on W. Osceola Parkway to Gaylord Way. Proceed right on Gaylord Way to the Gaylord facility. The seminar will be held in the Convention Center Sun Rooms 5&6.

Paid Registration is required. For more info visit: <https://aea.net/convention/2023/Attendees.asp>
