

Mastering GPS and RNP approaches for IFR use in the NAS

A mastery level class for USCG instructor pilots in using RNAV(RNP) for single-pilot IFR navigation and procedures in the National Air Space.

Time will also be spent on the benefits of using the FAA Wings program now to prepare for transition to civilian flying.

Prior to attending a safety seminar, please review and abide by current CDC, State, and Local health guidelines.

This program is for US Coast Guard Pilots, Crew and, Instructor Pilots only.

For more information contact the USCG ATC Attn: Matthew Stuber, LT Commander Training Department

A message from the National FAASTeam Manager
