

VNAV and Visual Procedures Helpful or Hidden Dangers

ForeFlight, Garmin, and Avidyne have all introduced great new VNAV & Visual Approach features for IFR pilots. Most good pilots and CFIs use them incorrectly and too often, which increases workload, failed approaches, FAA pilot deviation, and mid-air collisions. Learn when and how you should best use these features.

Bountiful Skypark Aviation Festival: Saturday, June 1st, and Sunday, June 2nd, 2024, 9:00am - 5:00 pm

This event is free to the general public. If you are flying in please call ahead for parking. 801-295-3877
