Our 18th in this series will explain how to link the popular flight simulator software X-Plane to ForeFlight so that you can fly and learn with your iPad. You'll learn the in-flight features of ForeFlight, but most importantly, you'll learn how to set up a training ground in your home or office so you can safely practice and become proficient with using this complex app on the ground.

You can view the recordings of previous ForeFlight Workshops [here](#):
