

Stature Aviation Basic WINGS Seminar

The Stature Aviation Safety Program provides a "hangar flying" experience organized around important safety topics in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion relating to the event topic. We also have occasional guest speakers.

The scenario(s) we will discuss at this meeting is/are: The Impossible Go-Around: You've got the whole family on board for a great weekend by the ocean at Falmouth Airpark (5B6). However, the landing attempt on a runway that's short and obstructed didn't go so well. Now you have only a second to decide if an attempted go-around will safely clear the trees—or result in a catastrophe.

All are welcome. You do not need to be a certificated pilot to attend.

Event Details

Sat, Jul 12, 2025 at 08:30 CDT

Stature Aviation Addison Airport

4581 Claire Chennault

Addison, TX

Contact: Darren Fleming
