

EAA Chapter 1246 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenario(s) we will discuss at this meeting is/are: Statistics say a partial power failure is three to five times more likely than a complete power failure. But that might mean three times as many options and a paralysis of indecision. How will you weigh your options to take the best prompt action without simply making a snap judgment?

All are welcome. You do not need to be an EAA member or instrument-rated pilot to attend

Event Details

Sat, Jan 3, 2026 at 08:30 CST

McKinney Airport

1476 Industrial Blvd.

Doors On The Left Side Of Building

McKinney, TX

Contact: Kurtis Sampson

972-529-7502
