

IFR / 3 Alternates You Need in Every IFR Flight Plan

Learn why the outdated 1-2-3 rule for alternates isn't enough and how to choose Takeoff, Weather Diversion Point (WDP), and Destination Alternates to enhance safety and decision-making on every flight. With real-world examples and in-flight footage, this class is a must for IFR students, pilots, and instructors. Taught by Gary "GPS" Reeves, with >20 years of real-world IFR experience

CFAA(Central Florida Aerospace Academy) is inside SunNFun at Lakeland Airport. The building is located at the corner of Medulla Rd and Peggy Brown Rd. near the main entrance. The class is free but requires admission to SunNFun. For more information please visit <https://flysnf.org>
