

Can You Decide What to do When your Engine Fails?

Your engine begins to fail during flight. Can you make it to your planned destination or do you need to divert elsewhere? Will it be a runway? Roadway or street? A farmer's field?

We will review a real life scenario, the options available to the pilot, and discuss the choices and outcomes.

From Loop 820, proceed south on North Main Street (Business Highway 287) to 3949 N. Main Street. The entrance door sits between Hodges Aviation and Rotorcraft Services Group. Look for a small blue awning over the door.
