

Runway Roulette

What starts off with a flight to a busy airport quickly goes downhill. ATC is all in your ear. You're not familiar with the airport or it's flow. And you're stress level is peaking.

We will discuss strategies to consider to practice smart and safe ADM so you can stay ahead of the airplane and avoid being the unfortunate subject of an NTSB report.

From West Loop 820 and Business Hwy 287, proceed south with Meacham Airport on your right. After Passing Terminal Road, start looking to the right for the FWFC Hangar, marked by a grey door with a blue awning. We are located between Hodges Aviation and Rotorcraft Services Group.

A message from the National FAASTeam Manager
