

Modern IFR Cockpit GPS and Autopilot Real-World Pro Tips

This **2.5-hour** special class combines the most important real-world GPS and autopilot pro tips for safer single-pilot IFR. Learn critical Garmin and Avidyne GPS techniques, the common autopilot errors good pilots make, and practical ways to integrate both systems to reduce workload, improve situational awareness, and safely manage IFR operations.

- GPS database updating and preflight requirements
- Planning for GPS failures and outages
- Visual approaches and vectors-to-final
- Autopilot modes and common errors
- GPS and autopilot integration
- Workload reduction and emergency techniques
