

Why 'Flight Following' is safe, not a burden. Operation Raincheck

An insight into air traffic control. There will be a speaker from Memphis Approach here to speak on the local ATC facility and how flight following can not only save your life but also helps them as well.

Directions: From Memphis, take highway 385 to the Hacks Cross exit and go south. Stay on Hacks Cross until reaching an industrial area and the entrance to the airport is just past a railroad track and next to a Chevron gas station. Turn left on this road and follow it to the Air Venture parking lot

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
