

Unmanned Aerial Systems. How will they affect you and the way you fly?

Unmanned aerial systems are used for a variety of purposes, from military and reconnaissance to firefighting and agricultural applications. But how will they be regulated to safely fly side by side with manned aircraft? We will have a presentation by Trey McClure from the Jackson FSDO followed by drinks and snacks.

Directions: From the North, take Hwy 385 to Hacks Cross Exit and head South. Turn Left on Airport Road. From the South, take Goodman Road to Hacks Cross and turn North. Turn Right on Airport Road.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
