

## Owner/Operator Mechanic Relations

Come to the McComb/Pike County Airport for some good food and great information about aviation safety. This will be an interactive live PowerPoint presentation with question and answer session that looks at how better owner/operator-mechanic communication prevents unsafe aircraft, delays, and bad decision.

From Interstate 55 take exit 13 and go East for .8 miles then turn right onto John E. Lewis Drive. There is an airport sign at this intersection. Go South on John E. Lewis Drive for .4 miles and the airport entrance is on the right. Come into the blue building and hangar on the left of the gate.
