

FLYING into MAMMOTH/YOSEMITE and Preparing for the ADVENTURE!

What you NEED TO KNOW about Flying to Mammoth/Yosemite (KMMH). Learning about this GREAT DESTINATION will help you to have a SAFE TRIP. Discussion will address the Location, Density Altitude, the Weather Concerns, Crosswinds, Runways & Taxiways, the Nearby Nav aids, the Pattern, and the Radio Frequencies you'll need to know about.

Directions: Continental Aviation is the fourth building east of Balboa Blvd. on the south side of Stagg St. Fly-in: Park at any of the FBOs on the airport. Advanced contact recommended. Some waive ramp fees for a FFASTeam safety program. Most offer courtesy transportation.

A message from the National FFASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
