

FAASTeam presents:

**URGENT! Fox Airport Tower Closure & NON-Towered Field
Procedures Refresher - Urgent!**

We have received final word last Friday that the KWJF (Fox Field) tower is scheduled to CLOSE on April 7. The result will be turning KWJF into an NON-Towered airport. As local KWJF pilots (or our friends who fly in) we need to be PRO-active in making this transition work smoothly and safely! We are inviting you ALL to this meeting for refresher training, interaction, and lively discussion! We are planning: 1. An overview presentation of uncontrolled field regulations and recommended procedures, 2. Handout materials, 3. Current tower personnel to give you their perspective on "hot spots" and safety suggestions, 4. Approach and/or Center personnel to discuss instrument approaches at uncontrolled fields and other issues, 5. Local flight instructors with their observations, and 6. All of you who will bring your experience, suggestions, questions, and inputs! Please turn out for this important meeting!

Directions: From Hwy 14, turn west on Ave G. At 50th St W, look for airport sign on the right. Turn right onto airport access road, continue driving past the FBO road, and look for terminal building loop on the left.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
