

ANATOMY OF A SPIN: 13 inches Between Life & Death!

Designed to help make and keep you a safer pilot, and help keep you from misusing the flight controls and, "crossing the line wherein no recovery is possible."

Spins may be the most recognizable of any flight maneuver yet devised, but they also may be the most misunderstood because hands on spin training isn't part of the PTS for private and commercial pilots.

This seminar is brand new from Ron Berinstein, and tonight will be its public debut.

Directions: VNY FLYAWAY--Woodley Ave. & Saticoy St. (East side of VNY Airport)--Community Mtg Rm. 2nd Flr. (Zip Code for GPS is 91406-1719) "Free parking in 30 min. lot for attendees"

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
