

'Targets in the Sky' a different approach to the instrument scan!

T and inverted V, what's that all about? Control and performance instrument scan can be simplified with proven techniques with flying by the numbers & targets in the sky. This seminar promises to simplify the instrument scan with a different approach, including glass transition instrument scan.

Rusty scan or No scan, Targets in the Sky is for you!

Directions: Premier Jet Center, 2100 Palomar Airport Road Carlsbad, CA 92011. Free Parking in front of building. Go to upstairs conference room. (No ramp fee)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
