

FAASTeam presents:

How to REALLY Understand AIRSPACE! w/ David Voelker, FAA Inspector

FAA Inspector David Voelker will review important parts of the Airspace System and will explain them in a way that definitely amazes most pilots. David engages everyone, and makes the details you thought you understood perfectly leap off the page and become "challenging!" The NUMBER ONE VFR PILOT DEVIATION is AIRSPACE VIOLATION! This is your opportunity to Protect Yourself! "What you THINK you know, just might come back to bite you!" David Voelker has a unique ability to help us gain real insight into the regs. He will help you clarify just where additional study might pay off!

INSTRUCTORS who would like to benefit from some additional very professional insight, and pilots of every level are invited to attend.

Directions: Exit Los Posas Rd from the 101 Fwy. Travel South toward Camarillo Airport. Turn West on Pleasant Valley Rd. and turn Right (North) onto Eubanks St. Continue to Aviation Drive. Park next to the Commemorative Air Force Museum. Please park on the street rather than the museum parking lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
