

FAASafety Team presents:

**'Sunday Morning Hangar Talk' - GA News & Safety Info
Roundtable**

Seventh episode in a series of monthly opportunities designed to provide aviation safety and news updates in a video magazine format for pilots who would like to ask questions, explore answers and stay informed. This Month: Our Safety Message will feature identifying Pilot Deviations - and How to Avoid Them! Also, planned is a very casual round table discussion (often motivated by visuals) wherein your stories, questions, opinions and comments will serve as the tasty appetizers on our checklist. Each month we'll address some pertinent ABCs of ADM; we'll examine some current accidents, talk about pilot technique and avoiding LOC. Multiple CFI's will be on hand to provide several viewpoints and opinions. Hopefully, everyone will discover something that will improve their own pilot skills and knowledge bank.

Directions: VNY FLYAWAY--Woodley Ave. & Saticoy St. (East side of VNY Airport)--Community Mtg Rm. 2nd Flr. (Zip Code for GPS is 91406-1719) "Free parking in 30 min. lot for attendees"

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
