

THUNDERSTORMS, MICROBURSTS, and WIND SHEAR - oh my!

Enjoy and learn from a video enhanced discussion focusing on these Dangerous Weather Conditions that need your utmost care and consideration. Microbursts can be sudden and severe. Low level wind shear can be deadly. We'll review the proper and professional techniques for flight safety, that need to be considered for both local and cross country flying.

Directions: Located on Roscoe at Van Nuys Airport. Rotor F/X Big Blue Hangar

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
