

# Basic Acro and EMT (and No, that Doesn't Mean Emergency Medical Tech!)

It's easy to start Acro flying and learn Emerg. Maneuver Training. This, is your invitation to find out how! Everyone will benefit from this evening; but the focus will be aimed toward the experienced pilot who now wants to know a little more about sensing a potential accident, and how best to fly their plane if something does go wrong. We'll cover how to go about spreading your wings a bit, in order to best enjoy some EMT and /or some ACRO training.

**Directions:** VNY FLYAWAY--Woodley Ave. & Saticoy St. (East side of VNY Airport)--Community Mtg Rm. 2nd Flr. (Zip Code for GPS is 91406-1719) "Free parking in 30 min. lot for attendees"

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
