

## GROUND PROXIMITY WARNING System Info

CFIT accidents present a real threat to GA Aviation Safety. Why not review how you might prevent them and avoid the clear and present danger? With the software apps and the Electronic Flight Bag Equipment that so many fly with today, Terrain and Hazard Avoidance is within easy reach.

You don't have to be flying a jet to get warned about the height and presence of obstacles that lie ahead in your flight path and pose a deadly threat.

**Directions:** Rotor F/X 16644 Roscoe Blvd. Van Nuys, CA 91406-1103 on KVNY Big Blue Hangar with large American flag

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
