

# ALERT!! 'DATE Change' to Oct. 21st for; Danger - Danger: 'LOSS of CONTROL' can become a Killer.

Loss of control is on the FAA and NTSBs most wanted list for accident prevention. Loss of Control is an issue with both GA and commercial operations. With proper analysis of accidents, instructors and students will recognize the red flags leading to the loss of control from start up to shut down.

**Directions:** On the northeast corner of Woodley & Saticoy Street east of KVNY. (Free parking in the 30-minute parking area for seminar attendees) FREE - Limited to 45 people

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
