

N/A presents:

Weather Tactics with Bill Frank a VC99s Pilot Proficiency Class

Safely maximizing the utility of your aircraft requires understanding complex weather patterns both in summer and winter. This course aims to provide the pilot with the knowledge base to deal with weather as encountered enroute with a focus on thunderstorms, icing, and turbulence. Included is a discussion of using NexRad and DataLink Weather Services in flight. Finally, there will be a discussion of the aeronautical decision making process in dealing with inadvertent severe weather encounters. Weather encounters are almost inevitable for cross country flying and this course is designed to give the pilot the tools to safely manage these encounters.

There is a fee for this class. Preregister at least 24 hours in advance at <http://www.vc99sclasses.com>.

Directions: Driving: Exit 101 Freeway at Los Posas, head south on Los Posas. Turn right at traffic light at Pleasant Valley. Turn right at traffic light at Airport Way. Dept of Airport Building is last building on the left where Airport Way dead ends at Durley. Flying: A three minute walk from the walk-through gate adjacent to Channel Island Aviation. Walk out to Durley, turn left on Durley. The Dept of Airports Building is on your right at the intersection of Durley & Airport Way.
