

FAASafety Team--FAAST presents:

## **NOTE - Location Change for ForeFlight Workshop Series**

ForeFlight is a widely and very sought after application and as such has the need for proper usage techniques for it to be valuable. It is a feature that is not always understood and if not used properly could cause very serious safety issues affecting the aviator and the National Airspace System (NAS).

This is the first of several ForeFlight workshops I plan to conduct. They will serve as a recurrent training for users of the world's leading aviation flight planning app. Attendees will determine the aspects of the program discussed and share valuable tricks with one another for using the app including, but not limited to: Preflight Planning, Briefings, Setting up your aircraft, Flight Plans, Data Download Management, Basic Use, Advanced Use, and much more of whatever YOU want to know and share.

Supporting documents will be on [www.CaptainSchiff.com](http://www.CaptainSchiff.com)

This a 2 hour event from 7 to 9 p.m.

## Event Details

**Tue, Nov 7, 2017 - 19:00 PST**  
**Dept. of Airports '2nd Floor**  
**Meeting Room'**

555 Airport Way  
Camarillo, CA 93010
