

FAASTeam presents:

CFIs with Pilot Examiners as well as ALL Pilots Forum on Conducting a Risk Based Flight Review

Every pilot does it: a Flight Review (or equivalent) at least every two years. For many pilots a Flight Review is the only opportunity for a safety and skill assessment, and the CFI plays a key role to reduce the likelihood they will become a statistic! How do you change the concept from “a test that must be passed” to a service to your clients to help make them safer pilots? Also, ALL pilots are welcome to help them understand how to benefit from a good Flight Review (Approx. a 2 hr. event)

Directions: Directions to Venue: (2 hr. event)
Driving: Exit 101 Freeway at Los Posas, head south on Los Posas. Turn right at traffic light at Pleasant Valley. Turn right at traffic light at Airport Way. Dept of Airport Building is last building on the left where Airport Way dead ends at Durley.
Flying: A three minute walk from the walk-through gate adjacent to Channel Island Aviation. Walk out to Durley, turn left on Durley. The Dept of Airports Building is on your right at the intersection of Durley & Airport Way.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.

Event Details
