

FAASTeam presents:

MOUNTAIN Flying and TRUCKEE TAHOE Airport - Expert explains How

The Truckee Tahoe Airport District and Santa Barbara Flying Club invite you to join us for an in-depth look at flying in mountainous terrain and into Truckee Tahoe Airport.

Lake Tahoe is a great destination, but pilots must be aware of terrain and weather effects in the mountainous terrain and unique factors when flying in and out of Truckee. Our speaker will discuss considerations for flying in the mountains, including winds and weather, night operations, icing, density altitude and aeromedical factors. She will also focus on unique factors to consider when flying in an out of Truckee airport (KTRK) such as non-towered airport operations, route planning, sharing airspace with gliders, downdrafts to watch for, and detailed arrival and departure planning information. This seminar is recommended to anyone planning a flight into the Truckee-Tahoe area. Length: 2 hours

Directions: From US 101 - Take the Fairview Ave. exit. If going: (Northbound - Go Srraight over Freeway) (Southbound - turn right on Fairview Ave.) At Hollister Ave. Turn RIGHT. At Hartley Place (the second left turn pocket on Hollister) Turn LEFT. Continue STRAIGHT towards Fire Station 8 on Hartley Place. The VISITORS CENTER is located across the street from the Fire Station.
