

Using ForeFlight to Navigate LA Airspace with Brian Schiff

Learn to use ForeFlight to its full potential to plan and navigate the LA Class B airspace via the Special Flight Rules Area, Coliseum Route, Hollywood Park Route, Mini Route, and Coastal Route. We will plan several exemplar flights, including one from SBA to SAN or French Valley. ForeFlight is a widely and very sought after application and as such has the need for proper usage techniques for it to be valuable. It is a feature that is not always understood and if not used properly could cause very serious safety issues affecting the aviator and the National Airspace System (NAS).

Note: this is part of a regular SBA 99's meeting. Supporting documents and PowerPoint slides will be on www.CaptainSchiff.com

Directions: North side of SBA airport, West of Runway 15R threshold

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
