

## Low Altitude IFR Enroute Chart Review

Unveiling the data possibly hiding in plain sight. TEC will be reviewed as well. Perfect for the GA pilot, or the IFR Pilot looking for a review, and for the smart pilot seeking an IFR rating, and more information about achieving safe flight in a busy metroplex area like ours. Seminar length: 2 hours

**Directions:** First driveway going south past Airport Avenue (College Dr. - Traffic Light) Southeast corner of KSMO. Located inside the big green four story building on the first floor. Just enter through the front doors, and turn left at the first aisle. Room #123 will be to your right, at the end of the aisle. Plenty of free parking, BUT only park "head in," to avoid being ticketed.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
