

FAASTeam presents:

Hazards in Aviation Weather - Identify Them Before Your Flight

Vital Information for Pilots

"Weather is the most lethal of all major causes of aviation accidents."

Former FAA Administrator

In this 60 minute webinar you'll learn methods to do just that. Assess the potential hazards and how to avoid them.

- The top resource for assessing potential turbulence or mountain wave.
 - Tools that most pilots rely on—that are not reliable (and what to use instead)
 - How to determine if thunderstorms will be a factor
 - Recognizing turbulence or LLWS even when it's not forecast.
- Identifying mountain weather hazards in areas with few reporting points.

Note: When you register you will receive emails from Easy Webinar or Fly-Rite. You can easily opt out anytime. Look for the "unsubscribe" link at the bottom of each email.
